**REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed 4/14/05 overcame the technical deficiencies and the prior art rejection. Claims 1-3, 8, 10, 13-15, 20 and 22 are allowed because the prior art of record does not show the effective capacitance value  $C_{eff}$  being determined by an equation  $C_{eff} = (C * G_m) / (G_m + G_o)$  where the  $G_m$  is the first adjusted gain value of the first charge pump,  $G_o$  is the adjusted gain value of the second charge pump and  $C$  is the capacitance of the filter capacitor as combined in claims 1 and 13. In particular, Bisanti et al (US 6,600,351) and Wu et al (US 6,710,666) does not suggests that the charge pumps (508, 510) source the first current and the second source currents to the filter (520) and the gain of the first charge pump (508) and the gain of the second charge pump (510) are adjusted to decrease the effective capacitance.

**CONCLUSION**

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
